

PRESIDENT 2ND. AT BUFFALO

Fast Local Horse Fails to Win

GOLD DUST MAID FIRST

Time is Slow and Presi- dent Should Have Won, is Local Belief

Gold Dust Maid won the major portion of the \$10,000 purse in the Empire State 2:10 trot decided at the third day's meeting of the grand circuit at Buffalo, N. Y., yesterday, the President, owned by Wilson & Robertson of this city coming in second in the three straight heats. It is understood considerable money was won on the President on bets for place.

Gerr's horse was favorite in the betting, selling for \$100 and the field for \$20.

Geers gave a wonderful exhibition of driving in the first heat, coming from behind and getting up in time to finish first. The second heat went to the favorite, but in the third heat, she broke on the first turn and Oro won the final heat.

Geers also won the 2:16 pace in straight heats with Ardelle the favorite. The 2:08 pace was won by Hal C, who annexed the first two heats. Prince Hall took the third heat. Geers wound up a successful day by driving Lady Gail Hamilton to victory in the 2:09 trot.

In the first heat of the first race Doris B and Daphne Direct collided and Driver Allen sustained a broken rib and was badly shaken up.

The race in which the President participated in detail follows:

Gold Dust Maid, blk. m., by Silverthorne (Geers) 1 1 7
Oro, blk. g., by Little Corporal (McCarthy) 3 3 1
The President, br. h. (Loomis) 2 2 2
Roberta, b. m. (McHenry) 4 4 3
Time—2:07 1/4, 2:08 1/2, 2:09 1/4.

Allie Jay, The Phantom, Belle C, Helen Norte, Alexander, Lady Mowrey and Watson also started.

RESIGNS TRUSTEE- SHIP OF MEX. CO.

State Bank Gets Tired of It's Job and Files It's Notice

The State bank of La Crosse which has been trustee for the stockholders of the Mexican Plantation company has resigned.

When Cashier J. M. Holley was asked as to the reason for this action, today, he declared there was no reason other than that the bank was tired of the job and had decided to relinquish it.

The matter will be acted upon at the annual meeting of stockholders to be held Aug. 23.

AUTHORESS SUES LOEB FOR \$50,000

(Scripps-McRae Dispatch.)

OYSTER BAY, N. Y., Aug. 10.—Secretary Loeb was served this morning with papers in a suit for \$50,000 instituted by Madge Dore, the authoress, who was arrested in Washington last winter.

Loeb says if the woman has a case it is against the police as he had nothing to do with her arrest. The arrest was made outside of St. John's, which is Mrs. Roosevelt's and not the president's, church.

OH, NO! THE GOVERNMENT WON'T ARREST JOHN D., JUST THE SMALL FRY

(Scripps-McRae Dispatch.)

CLEVELAND, O., Aug. 10.—It is unlikely John D. Rockefeller will be indicted. Government officials intimate that individual officials will be caught, but only minor officials. Rockefeller says it is twelve years since he was connected with the Standard Oil company.

MINNEAPOLIS READY FOR 200,000 VETERANS OF GREAT WAR

(Scripps-McRae Dispatch.)

MINNEAPOLIS, Minn., Aug. 10.—Arrangements are complete for the Grand Army of the Republic encampment next week.

Gen. Tanner arrived this morning and was received by a battery of the national guard. He refused to ride to the hotel in an automobile. His arm is in a sling on account of a felon which prevents him shaking hands.

Two hundred thousand visitors are expected. There will be twenty-five thousand in the parade.

Route of Electric Line Planned

WORD IS FROM CHIPPEWA

That Chicago Capitalists are Behind Large Extension

According to advices from Chippewa Falls, the northern electric line project will not stop with a line between La Crosse and Black River Falls. It is planned, according to these advices to extend the line from La Crosse through Black River Falls and Menominee.

A dispatch from Chippewa Falls says:

"Chippewa Falls will soon be connected by interurban with Menominee if the present plans of the Chippewa Valley Electric Railway company are carried out. A crew of surveyors will be in the field next week locating the proposed line between Eau Claire and Menominee. Arrangements have been made for the issuing of new bonds and realizing part of money needed for the development of the new power and the proposed new interurban extension. Local and Chicago capitalists met here today to discuss plans of building an electric railway from here to La Crosse by way of Black River Falls."

ARTHUR LIENLOK- KEN PASSES AWAY

Arthur Lienlokken died this morning at his residence, 502 North Sixth street, of consumption. He was the son of Jens Lienlokken and was born and raised in the city. He was 25 years old. He was an operator and has been employed by the North American Telegraph company for many years. Those who survive are two brothers James and George, and two sisters Mrs. John Taylor of Grand Forks, and Miss Alma of this city. The funeral will take place Sunday afternoon from the residence at 2:30 o'clock. Interment will be made in Oak Grove cemetery. Rev. J. Sroka officiating and Fessler & Dahl in charge.

(Scripps-McRae Dispatch.)
NEW YORK, Aug. 10.—The international policyholders' committee has started a vigorous campaign to secure the actual mutualization of life insurance companies.

The most active part of this campaign is the establishment of a press and publicity bureau under C. F. Carrington.

They will spare no expense to gain the assistance of small holders to get control from the officers.

NECK BROKEN WHEN TRAP FALLS

(Scripps-McRae Dispatch.)

BOISE, Idaho, Aug. 10.—William Henry Syckes Bond was hanged this morning at 6:11 for the murder of Charles Daly, Oct. 6, 1904. His neck was broken and his body cut down in six minutes.

Rudolph Wetter, sentenced to hang at the same time, was reprieved last night by the governor until Oct. 30.

DENIES TEACHINGS OF THE BIBLE

(Scripps-McRae Dispatch.)

CINCINNATI, O., Aug. 10.—Rev. George Clark Cox will likely face charges of heresy.

Writing to Bishop Vincent he compares the case to Dr. Crapsey's and says he does not believe in the virgin birth of Christ. He denies bodily resurrection and the doctrine of the original sin.

BOYS' CONFERENCE AT GENEVA

At the Y. M. C. A. conference for boys that was held at Lake Geneva from Aug. 1 to 6, about 300 delegates were present. These delegates represented twenty states and parts of Canada. The delegations from Wisconsin were next to the largest. Oliver J. Ash of La Crosse represented the local institution. The Wisconsin delegation decided to hold the mid-winter conference at Janesville during the Thanksgiving holidays. This conference will be held for the purpose of bettering the boys' department of the Y. M. C. A.'s in general.

LOSES HAND PLAY- ING PIRATE

COLEMAN, Wis., Aug. 10.—Eaton Bartels, the 14-year-old son of C. J. Bartels of Coleman, while rafting yesterday afternoon on the little Peshigo river here, and fooling with a shotgun, accidentally shot off his right hand about three inches above the wrist. The force of the shot knocked him off the raft into about five feet of water. He got out unassisted and walked to his home, a distance of about a quarter of a mile. There were several small boys with him when the accident occurred, but they were so badly frightened they could not aid him.

WAKES; BURGLAR STANDING BY BED

Lloyd Williams Pretends he is Asleep and Later Shoots at Intruder

Another attempted robbery took place last night at the home of Lloyd Williams at 1420 Rose street.

Mr. Williams, who is an employee of the Auto Rapid Transit company, was awakened at about 2:30 this morning by some person moving about in the house and upon raising up in bed saw a man prowling through the rooms and going through the drawers. The man at last went into another room and Mr. Williams immediately took the opportunity to get his revolver from a bureau drawer.

It was not long before the man put in his appearance for the second time and was shot at by Mr. Williams. The man ran and all trace of him was lost, although Mr. Williams made a thorough investigation of the premises.

The police were notified, but up to a late hour this afternoon no trace of the man had been found.

PLANS TO DEVELOP WIS. WATER POWER

MADISON, Wis., Aug. 10.—The proposed reservoirs for the St. Croix, Chippewa, and Wisconsin rivers, for which the United States Geological Survey engineers have completed the survey, are to have a total storage capacity of nearly 80,000,000 cubic feet. The intelligent operation of even a part of these thirty-two large reservoirs would have a marked effect in steadying the river discharge which in the past was made exceedingly irregular by the use and control of rivers largely for logging purposes. This and other aspects of the extent and possible development of northern Wisconsin water powers from a large part of the study made recently for the United States Geological Survey by Leonard Sewell Smith, professor of topographic and geodetic engineering at the University of Wisconsin. The Department of the Interior at Washington has just published the results of Prof. Smith's work.

So far as is known, not a single important river in the state has yet been made fully to produce its available power. The lower Fox comes the nearest, with a total of 31,598 actual horsepower, all produced in the thirty-five miles between Lake Winnebago and Green Bay. This large water power has caused the district to take high rank as a paper and pulp manufacturing center. Wisconsin, Chippewa, and St. Croix rivers can be made each to produce power equaling and even exceeding that of the lower Fox. Growth in the development of Wisconsin water powers has been rapid, being a gain of seventy-five per cent in the decade preceding 1900. In the past thirty years the increase has been from 33,700 to 99,000 horsepower, representing an annual saving over the cost of an equivalent amount of steam power, computed at \$20 per horsepower, of nearly \$2,000,000.

"WALTER BEE" COMES OUT FOR THAT LOVELY OFFICE OF SHERIFF

To the Editor of The Tribune:

I have decided to announce my candidacy for sheriff. Among the fifteen, sixteen, seventeen or eighteen other candidates I think a mick ought to stand a show. I believe truly that I can beat Palmer, Derr, Kennedy, the farmer, and Hodge, and any of that bunch of other good looking men. When it comes to good looks, Walter Bee is probably one of the best looking men in the city of La Crosse. Did you ever notice his fine, manly form, but stop—we will talk about this later when I start my campaign.

In the race for this office, I wish to draw a parallel. We will take Harry Palmer, he is a horse man. We will take Gene Derr, he is a horse man. We will take Hodge, Jim is a horse man. Now I will shake the dice against the bunch and they have got three horses to my one, and still I will win out. And then we have that farmer Kennedy, and he makes his brags about being a farmer. Why should we pay Mr. Kennedy a grand salary of \$6,000 in perquisites, and when he gets money he goes down home and says to his family: "What do you need for the house in groceries, meats, dry goods, pins, collar buttons, suspenders, garters, socks and have the pigs good corn, and his wife says: "What do you mean, Mr. Kennedy." He says: "I want to send an order to Montgomery Roebuck & Co., or Sears Ward & Co., I don't know which yet."

Kennedy, the farmer, is all right, is a good fellow. Of course, I am not acquainted with him, but he must be a good fellow just the same, because there are lots of good fellows running for sheriff and if they all got the job, everybody in La Crosse would take the first train for Mendota. Of all jobs, that is a cinch.

Walter Bee's face, his personality, his beautiful eyes, his lovely hair, the good clothes that he wears, the diamond pin that he wears, would appeal so strongly to the bug-house element that go to Mendota that before they got there, there would be no need of a sanitarium, they would come home as gentle as lambs.

Gentlemen, voters of the city of La Crosse, in presenting my candidacy for the office, the grand office, the great paying office, the lovely office THE CINCH office, I want you to vote for me in the primers, if you don't, if you don't if you don't, if you don't, GO TO!!!!

WALTER BEE.

SON SHOT BY FRIEND; FATHER OF VICTIM TEARS CHEEKS

FREEPORT, L. I., Aug. 10.—Joseph Mazzeo, 20 years old, was shot mortally by his friend, Vincenzo Rocco. They were walking down the Merrick road on their way to their homes after a day in the woods. They

had been drinking. A quarrel started and Rocco whipped out a revolver and shot Mazzeo. The bullet entered Mazzeo's open mouth and penetrated the inner ear and emerged through the back of his skull. It is not thought he can recover.

Rocco, after the shooting, fled to a swamp. Chief Henry Ryder found Rocco trying to make his way out. Rocco drew the revolver, but the chief knocked it out of his hand. He is in the Mineola jail.

When the news of the shooting reached the Italian quarter scores of residents ran to the scene. Mazzeo's father began to tear his own cheeks and dug his nails into the flesh so that his face bled profusely. He was overpowered, and so severe were his hurts that a doctor dressed them.

Horse Wears Trousers

CANANDAQUA, N. Y., Aug. 10.—A horse in trousers is interesting Canandaigua. The horse belongs to Charles Parshall, the Canandaigua agent for the Humane society. Parshall observed that his horse suffered severely from attacks of horseflies, and conceived the idea of taking some old trouser legs and placing them on the animal, fastening them to a fly net. The horse now is able to eat his rations without stopping to fight flies, and the plan is as much of a success as was the old horse bonnet, which also had its origin in Canandaigua. It is denied that Anthony Comstock

made any demand that the trousers should be worn by the horse to cover his nude legs.

OARSMEN SHOULD GO AFTER COLLEGE ROWING REGATTA

**Talk of Changing Poukeepsie Course
Revives C. C. McConville's Plan
to Bring Races Here**

Agitation has been started in the east to transfer the annual college rowing regatta from Poukeepsie, N. Y., to Erie, Pa. With this movement taking hold among prominent alumni of eastern oarsmen and universities and an effort being made to interest Wisconsin oarsmen and followers of the Wisconsin crew, Curran C. McConville, former coach of the Wisconsin crew, believes that sportsmen residing along the Mississippi should make an effort to bring the regatta to the central west.

This movement was broached by Mr. McConville a year or two ago, but at that time enthusiasm was lacking and nothing came of it. A course above La Crosse, four miles in length, with a wide expanse of water was measured off by Mr. McConville. In every detail the course was perfect, but the movement was dropped because no one took hold of it.

"If there is any chance of the regatta being transferred from Poukeepsie to any other place, Wisconsin oarsmen and followers of the crews, with sportsmen residing along the Mississippi ought to make a concerted effort to bring the meet to the Mississippi and La Crosse," said Mr. McConville this morning.

"There is ample room for an ideal course above La Crosse. Not a single detail is lacking. With the advantages of this course, from the foot of Main street, four miles up river, laid before the rowing men of the colleges of the United States, there is an excellent chance that La Crosse might secure the annual regatta. If sportsmen in La Crosse and towns along the Mississippi would take hold of the movement, it might succeed.

"The course is lined on the west by the Chicago, Milwaukee & St. Paul Railway company, affording a chance for observation trains. On the east

small boats might be stationed that those who wished could see the race from this point of vantage. All in all there is not a thing lacking. The time to make the move is now, when the transfer of the scene of the great college races is being discussed.

The movement to have the regatta at Erie, Pa., has been started by F. B. Downing, a prominent member of the Cornell alumni. His views are receiving the hearty support of the Ithaca faculty and student body. Henry Schoelkopf, another Cornell alumnus, has taken up the question in the west and is trying to interest the University of Wisconsin in it.

The proposed course at Erie is on Presque bay, a landlocked stretch of water about five miles long, with bluffs all along its shore. It has been used as a rowing course by boat clubs for several years and is looked upon as an ideal place for the sport.

One advantage it has over the Poukeepsie course is that it is still water, giving every crew an equal chance to win. The regatta has been held heretofore on tide water, and as a result one or more of the boats has been at a disadvantage owing to the currents.

Besides this, the Erie course would be more convenient for all the crews except that of Columbia. It would save Wisconsin at least ten hours' travel, and this, combined with the fact that the race would be rowed on still water, would do much toward bettering the showing of the Badgers.

COUNCIL MAY NOT ACT ON GUND'S RESIGNATION

The council tonight may or may not act upon the resignation of Henry Gund from the school board which was tendered some time ago. It is generally believed, however, that no definite action will be taken by the council until after the completion of the new high school.

The reason for the resignation of Mr. Gund is that he has moved into the same ward that Dr. Evans, another member of the board, lives in. It is illegal for more than one member to reside in the same ward, but this may be overlooked by the council.

The question of the sale of \$25,000 worth of water bonds will be tackled by the council at the meeting tonight. Owing to the tightness of the money market it is impossible to sell the bonds at 4 per cent.

It is said that about four years ago Frank Powell, who was then city engineer, advised the council to buy pipe in quantities. The price of pipe at the present time is about 100 per cent more than it was then. Alderman Keller suggests that the pipe market be watched and a quantity be bought as soon as there is a drop in price.

The committee to attend the state convention of the League of Wisconsin Municipalities will be announced by Mayor Torrance at the meeting tonight. The convention is to be held in Ashland Aug. 22 and 24.

QUINCY ACCIDENT WAS UNAVOIDABLE

There has been an official report made to the government of the facts surrounding the wrecking of the Quincy which occurred a little above Trempealeau early in July. According to the report there was no negligence and the entire list of passengers were saved at a sacrifice of the palatial steamer.

At the time of the accident there were several stories afloat, many of the passengers charging negligence. One passenger went so far as to gather evidence with the view of starting suit against the Diamond Jo packet line but the plan was later abandoned.

The early reports that the boat had struck a wing dam were incorrect, the boat striking a stump on land.

In speaking of the accident Capt. Thompson said:

"It would have been an easy matter for the pilot to save the boat, but it might have meant death to some of the passengers. The boat could easily have been run onto a sandbar near by and saved, but the grounding out in the river might have caused a serious panic among the passengers. Instead of doing this, the officers ran the boat ashore, where it was badly damaged, but the passengers were taken off with no difficulty. It is remarkable that none was drowned, and the officers are entitled to credit."

THE ELKS, AND LA CROSSE

There was some natural disappointment owing to the small attendance accorded the Elks' convention. For some reason the anticipated outpouring did not occur. Perhaps the La Crosse lodge was too optimistic because it had worked hard and well and knew a great gathering was deserved.

But if the attendance was unsatisfactory, that was the only unsatisfactory thing about the convention. The delegates are delighted. They are delighted with La Crosse. Delegates are always delighted with La Crosse. They are delighted with the entertainment accorded them. They are a unit in the opinion that to the La Crosse lodge belongs the honor of having conducted the most entertaining, hospitable and enjoyable meeting ever held by the order in this state.

"We have no good parks," grieved a La Crosse man to a visiting lady Elk who had admired the city.

"You have no need of parks; your whole city is a park," replied the admiring guest.

"I thought I was in a city of 75,000 people," said a Denver Elk at The Tribune office. "I am amazed at the beauty and enterprise and progression on every hand. Why, there is not another city of 50,000 in the United States of which La Crosse is not peer. I am a traveler, and I repeat that this is a wonderful town."

It was worth all the effort to make even a few people appreciate La Crosse enough to talk this way. So La Crosse can afford to be thankful to the Elks because they have shown so enthusiastic appreciation of La Crosse. We might make it a mutual admiration society, for the Elks proved themselves to be a splendid aggregation of gentility and intelligence. There has been no more pleasant and profitable gathering in the history of this city than the Elks' convention of 1906.

A HINT AS TO TAXING ICE PROPERTIES

President Field, of the Knickerbocker Ice company, a Chicago "ice trust" factor, has delivered himself of the opinion that anarchy is back of the present movement to secure accurate valuation of corporation properties. He says the men who advocate that sort of thing are "reds." He has developed so much enthusiasm in his denunciation of taxation methods that one a stranger to the facts must understand that the taxes of his company have been raised. He wants to know what, if not "red infection," could have caused an increase in the taxation values of his concern's property. The Record-Herald tartly replies:

"We may gently suggest it is, possibly, the result of the national agitation in favor of law enforcement and against dishonesty in business and in politics. The boards of assessors and reviewers are under oath to apply the revenue laws impartially and fearlessly. The rate of taxation is determined not by them, but by the legislature. They are limited to the duty of ascertaining the full, market value of property and assessing upon that valuation. We haven't heard of any attempt on the part of reviewers to go beyond the law. They may, of course, unintentionally overvalue property, but reasonable proof of over-valuation promptly yields a reduction. It is notorious that for each instance of over-valuation there are hundreds of under-valuation, especially in the personal property assessments. Generally speaking, the person, natural or artificial, whose schedules are honest and accurate, is in no danger of being taxed at a higher rate than the law intends. On the other hand, those who submit Pickwickian schedules at all assuredly cannot complain if the reviewers occasionally raise the assessments against them. Decent regard for the national sense of humor should restrain such dodgers from accusing the assessors of 'anarchy.' The 'anarchistic' boot would seem to be on the other leg."

There may be in this discussion a hint for La Crosse. It may be that, now that the ice companies have begun to make big profits, it would be wise to carefully examine the assessment rolls to determine whether the companies composing the alleged ice trust are paying taxes on the proper amount. During the discussion of earnings of the alleged combine, the members have incautiously told the amounts they have invested so as to show how great their earnings must be to represent fair interest on the money involved in the business. Some of these statements have been published, and it is possible that data concerning them could be secured. Why not compare the statements of investments made under these circumstances with the statements in the city tax rolls? And then, if anything has been hidden from the assessors, it is not too late to remedy the matter.

"A lion is known by his paw"—seeing only its paw you could not be persuaded that it was a coyote or jackrabbit. A store, is known by its ads. A man who has never been in this city would be able to identify, unerringly, the enterprising and important stores simply from looking over the ads in this newspaper.

Probably Shot Starts a Bolt by his Dog in Iowa

RIVERHEAD, L. I., Aug. 10.—Arthur H. Perry of Calverton, aged 20 years, son of Mr. and Mrs. Henry Perry, was killed by his own shotgun, and it is probable that his dog was the direct cause of the accident.

Coroner Peterson of Cutchogue, held an inquest, his verdict being accidental shooting.

It was related at the hearing that the young man and his brother were in the habit of going a short distance from the house to shoot at a target; that Arthur started out and shortly afterward his brother followed. The latter was horrified to find his brother dead, shot through the heart.

The brother said the young man was in the habit of leaning on his gun, whether loaded or empty, and that the dog that accompanied Perry was a playful little fellow. From the nature of the wound it is believed that Perry stood near a wheat stack, leaning on his gun, and that the dog, in playing about, jumped up on the youth, striking one of the cocked hammers.

The entire charge of shot passed through the left breast. The other barrel of the gun was loaded and the hammer up.

BAN AGAINST SPORT CAUSE OF SPLIT IN Y. M. C. A.

PERU, Ind., Aug. 10.—Too much piety and not enough Sunday recreation is the charge that has stirred up trouble in the railroad men's Y. M. C. A. of this city, the organization established by Miss Helen Gould, in which she has manifested so much interest. As a result President J. M. Hughes, Secretary Frank L. Greer and O. J. Bowman, director of physical culture, have resigned, and it is said the organization has shown a decided lack of interest and a loss of membership lately.

One of the divisions of sentiment is over the question of Sunday baseball, which many railroad employees favor as a harmless recreation. It is charged that the officers of the Y. M. C. A. leased the baseball park near the Y. M. C. A. building in order to prevent Sunday games. The railroad men claim that there is no recreation on Sunday and that they thus have no enjoyment from week to week. They insist that the association's work be conducted on broader lines. When new officers are chosen it is thought there will be a decided change in the attitude toward innocent sport.

and will forward the same to K. C. Gray of the Madison National bank to be paid to the treasurer of the Good Templars lodge in Madison, if there is one; if not to the treasurer of the Woman's Christian Temperance union, if that organization will accept it; if they will not, to the treasurer of the Christian Civic league of Madison, that God in all things may be glorified. For herein do I exercise myself to have a conscience void of offense toward God and toward men. For we must all appear before the judgment seat of Christ."

Six-year-old is a Burglar

OMAHA, Neb., Aug. 10.—In the arrest of Ernest Clark, aged 6 years, on the charge of burglary, a new record of Omaha's police annals for youthful criminals has been set. The police do not remember that so young a prisoner has been taken to the station on a serious charge before.

The lad, who has begun life with a criminal record, is the son of C. W. Clark, a tinner, living at Sixteenth and Davenport streets. He was caught in the act of robbing the cash drawer in the grocery store of Weinstein & Greenberg, 208 North Sixteenth street. The proprietors of the store are in the habit of leaving about \$2 in change in the drawer over night, and for several nights the money has persistently disappeared.

It was arranged to watch after the store closed at 6 o'clock. A trap was set to give the alarm when any one should enter, and the proprietors and a clerk waited upstairs. Before hiding themselves they saw the Clark boy peer into the front windows to satisfy no one was in, and soon afterward a noise told them the trap had been sprung. The little boy was captured just as he had his hand on the cash drawer.

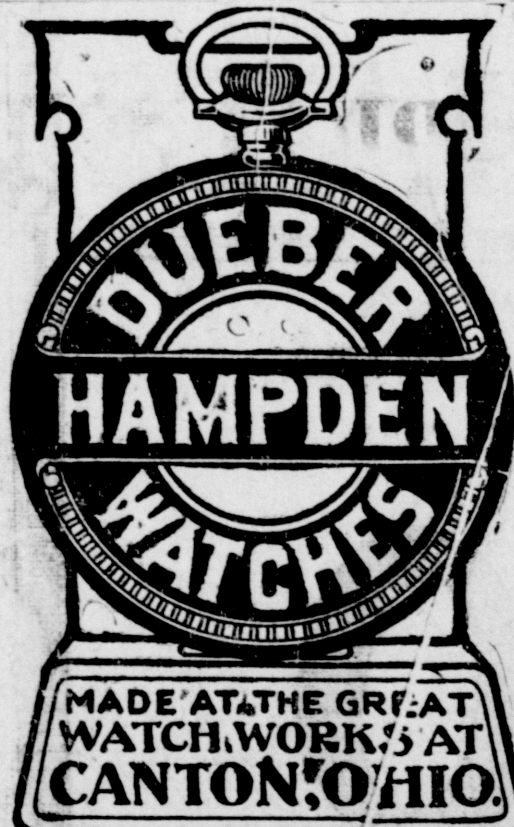

It was learned that the diminutive burglar gained entrance by crawling through the iron bars protecting a rear window. The lad protested he was not the one who did the other jobs, but that he only entered to see if the real burglars were in there. Assistant Probation Officer Carver took the prisoner to the detention home.

Gives Life to Save a Train

ALTOONA, Pa., Aug. 10.—At the cost of his own life Frank Reffner, 37 years old, a Pennsylvania railroad track foreman, saved a passenger train from wreck as it was rounding the Horseshoe curve on the main line. His men had cleared the track, when the approach of the swift accommodation caused them to get out of the way.

Reffner discovered that a jack which projected above the rail had been forgotten. Realizing the danger of the train being derailed, he sprang to the jack and wrenched it from the rail. He was just in time to avert a wreck, but too late to save himself. He was struck and his skull was crushed. He lived near where the accident occurred.

FRANKLIN CLUB TO DEBATE TARIFF IN SEPT. MEETING

"Q" ENGINE BEATS ERIE TO ST. PAUL

Business on the Burlington road is picking up, after a slack during the past two months or more which originated on account of the scarcity of coal owing to the coal strike. A number of men who have gone west will no doubt be called home in the near future.

At present a test is being made between a large Erie engine No. 1776, and a "Q" engine No. 2033, as to the ability in drawing large loads and getting over the road.

Yesterday the "Q" engine with a tonnage of 30,056 tons, started from Grand Crossing with John Boyer at the throttle and Fireman Irwin, and they succeeded in making the run to St. Paul in 8:30.

The Erie engine of a much larger type started on soon after with the same tonnage, Engineer Lawson at the lever and Carter firing, and they took 9:45 to cover the same distance. Another test will be made today with the same tonnage and it is thought the "Q" engine will reach St. Paul in less than eight hours.

Here's to Health and a Good Digestion

BLATZ BEER MILWAUKEE

Quality—Individuality—Purity—

The Quality of the Malt decides the body of a beer. *Blatz Malt* is produced in the brewery's own malt house by trained Malsters (years in Blatz service). "Not only how much malt—but how good" is here the inviolable rule. This method is expensive, but the desired result is always achieved—the vital ingredients of the malt are thereby brought out and retained. To the Blatz malt is due the prevailing full-bodied state of *Blatz Beer*.

The Hops used in the brewing of Blatz Beer are rich in aromatic properties and tonics (hop bitters), which lend to the beer that fragrance which captivates lovers of the beverage. The tonics act as a mild stimulant to the digestion. Blatz Beer is perfectly fermented and ripened in the coldest and cleanest cellars extant.

The most skilled masters zealously guard "Blatz" individuality. The paramount object being to maintain with absolute uniformity every characteristic that has these many years meant *Blatz Quality*.

SUPPOSE YOU WERE DISCHARGED

If You Were Discharged Today
Could You Get Another Job?

Have you the qualifications that make your services so valuable to an employer that you could secure a good position anywhere, at any time? Or would you have to take anything you could get, at whatever they would pay, and be glad to get that in order to provide food and clothes for yourself and family? This is the predicament that the majority of men would find themselves in if they lost their present positions. The man of this class has no special ability—no special training for some definite trade or work. Thousands of men can do the same thing that he is doing, and do it just as well. His work is of small value; he accordingly receives low wages; and his place can be filled at a minute's notice.

Chief Foreman in Less than Six Months

F. T. SHEEHAN, La Crosse, Wis.

Dear Sir:

When I enrolled for the complete Woolen Course, I was working as loom weaver at a very small salary. After studying about four months I was promoted to chief foreman with an increase of over 100 per cent. to my former salary. I claim and can prove that I owe my advancement to the perfect system of instruction that I got through the International Correspondence Schools.

Yours truly,

Signed, W. HEATON,

Games Today.

Wausau at La Crosse.
Oshkosh at Freeport.
Green Bay at Eau Claire.

La Crosse and Wausau will play the first game of the series at League park this afternoon. The game scheduled for yesterday was postponed because of wet grounds. A double header will be played Sunday afternoon, the first game beginning at 2 o'clock.

Jones or Schmeiberg will throw the opening game this afternoon, while either Gaspar or Lang will oppose. Lang joined the team yesterday and reported to Manager Holmes that he is in good condition. He injured his ankle several weeks ago at Wausau and has been unable to play since. During his temporary illness he has kept in form by using his arm each day.

Much depends upon the series with Wausau. If the Champs can succeed in taking four games straight, the chances for winning the pennant will be better than at any time this season. Freeport will be on the road at the same time, encountering teams on home grounds, so the chances are against the Pretzels.

Wausau has been a "hoodoo" team to the Champs all season. Manager Hawley and his band of braves have been compelled to play their fastest to win and not always have succeeded in gaining a victory. With Pitcher Lang taking his turn in the box again, the Lumberjacks are strengthened.

Freeport, 6; Oshkosh, 0

FREEPORT, Ill., Aug. 10.—The game with Oshkosh here yesterday was a one-sided affair, Freeport scoring six runs off Lietman, a Chicago man, who joined the Wisconsin men here. Score: R. H. E. Freeport..... 200400000—6 8 1 Oshkosh..... 000000000—0 3 2 Batteries—Scott and Erickson; Lietman and Moore.

EAU CLAIRE, Wis., Aug. 10.—Green Bay was defeated in a close game yesterday. Score: R. H. E. Green Bay..... 0000000010—1 8 1 Eau Claire..... 001001000—2 5 0 Batteries—Stremmel and Lanan; Speiser and Karnell.

VETERINARIANS OP- ERATE ON HORSES

The state meeting of the Wisconsin veterinarians closed yesterday afternoon after the holding of clinics in the barn at the corner of Second and Pearl streets. A number of horses were operated upon.

Dr. Holmes took the visitors for a ride about the city yesterday afternoon and they expressed themselves as very well pleased with the city and the treatment accorded them while here.

"BILLY" BOYD NEAR- LY BEATEN TO DEATH

W. J. Boyd, aged 40 years, and known to many about the city as "Blind Billy," staggered into the office of County Physician G. J. Egan, suffering from numerous wounds in his head and it was found necessary to take over a hundred stitches. He told a story of how he had been held up, robbed and nearly beaten to death. Last night it was thought that he would not live, but in answer to an inquiry at the police station today it is stated that he is improving.

While the story of the alleged hold-up cannot be affirmed it is certain that he was nearly beaten to death. It is understood that the police quietly are looking into the affair.

Widow Cannot Wear Mourn- ing

SAN FRANCISCO, Cal., Aug. 10.—The widow of Maj. William B. Schofield, son of the late Lieut. Gen. John M. Schofield, U. S. A., who shot himself Monday night, will not wear mourning. When he first contemplated ending his life her husband made her promise that in event of his death she should not wear black. Mrs. Schofield is in a critical condition at her home, 3947 Twenty-third street, and is under the care of a physician.

FREEPORT TRYING TO STEAL FIRST PLACE

ROBBED WAUSAU OF GAME
SAYS MANAGER HOLMES

Were La Crosse and Freeport tied for first place yesterday? Is Freeport holding first place by virtue of claiming a game not awarded them? These questions were asked by anxious fans with the reappearance of the Wausau team for the last time this season. At Wausau, Freeport took a game, not awarded them by Umpire Boland, and have included it in the percentage column.

"Ducky" Holmes, manager of the Wausau team, makes the claim that Umpire Boland never gave Freeport the game after a complaint over a bad decision at second base by himself. However, Freeport waited for no decision from the umpire but followed the usual "robber" tactics and took the contest.

Manager Hawley of the La Crosse team, shares the same opinion as does Manager Holmes. He believes the Champs and Freeport were tied yesterday, although the percentages in the various papers do not show the two teams to be so close.

"Freeport is claiming a game from Wausau which was played in our town, but never was awarded them," said Manager Holmes yesterday. "Umpire Boland made no decision, as he ought. Freeport probably took this as a means of grabbing the contest."

"If my contentions are right, La Crosse and Freeport are tied for first place. By deducting the victory from the Freeport list as given in Thursday morning papers, the Illinois team will have the same number of credits as La Crosse."

Manager Hawley and President Elliott probably will make an effort to ascertain whether Umpire Boland notified the official scorer of any decision. Each is inclined to write President Powers on the subject and probably will do so.

Local fans are more than interested in the discussion. From appearances the fight for the pennant will be warmer than ever from now on and the scrap a close one.

Manager Holmes thinks that La
